## PREVENTION HELMET

Release. Unlock. Remove. The Prevention is a brand-new concept in open-face helmet, featuring innovative removeable side protection and a low-profile fit for a safer customisable ride.

PAGE 18

## NEW GLOVES

We restructure and streamlined our bike glove collection for next season with three new models up for grabs. It's never been so easy to find the perfect glove for your ride.

PAGE 80

## NEW APPAREL LINE

Our 2024 line comes in new colors, new lightweight and ventilated jersey fabrics and new streetwear styles. Ready for all those who want to hit the trail, be it on rough ground or urban terrain.

PAGE 91

## PASS 2.0 HELMET

The Pass 2.0 is the new refined version of our legendary Pass Downhill Skate Helmet. It visually draws on the sleek lines of the original Pass but is now made from lighter ABS and features enhanced aerodynamics, upgraded ventilation and much more.

PAGE 45

## WHO IS TSG?

We are a wild bunch of avid snowboarders, freeskiers, skateboarders, BMXers, mountain bikers and all-round thrill seekers with experience in product development, who just happen to be science-minded perfectionists: And we're all about creating the best protection possible.

Back in 1988 we simply couldn't find protective gear that measured up to our high expectations, so we decided to make our own. With years of riding behind us we knew exactly what we wanted to make. And, with years of field-testing ahead of us we couldn't wait to get started!

Today, TSG still strives to give you the greatest protective gear in the world, gear that constantly raises the bar in terms of style, comfort, design, technology and, above all, safety.

## DESIGNED BY RIDERS

The driving force of TSG is to provide the best sport-specific protection to athletes of all levels, from kids dropping into the learning curb to professionals cracking codes on new tricks. Leading the charge is our global team of solid rippers. The gear we protect them with is the same as the gear that safeguards our customers. The harder the team slams the better TSG protection gets as their experience and visionary expertise is fed directly back into our design process, completing the circle that unites every core action sports brands — for riders by riders.

## CERTIFIED PROTECTION

Your body and your brain are the two most valuable assets you have. That's why we invest in the best design, materials and construction technologies possible to protect them. So when you're putting your body on the line, you do so knowing your protective gear is 100% team tested and lab certified. TSG strives to comply with or do better than certification standards. Our development team is forever growing its knowledge to make sure that TSG products meet and exceed the latest safety requirements in all conditions.

## LIGHTWEIGHT

Our goal is to create protective gear that is so comfortable and so light that you'll forget you're wearing it. This is why we developed the lightest halfshell helmet series for adults and kids.

the lightest halfshell helmet series for adults and kids.

## DESIGN

At TSG, we believe that when something is beautifully designed, it should not only work beautifully but it should look great too. Our products are designed for both functionality AND style, which is why we work closely with our team riders and exciting artists to deliver the widest range of colors and designs.

Back in 1988, we started TSG for one reason: To create the best gear for riders by riders and nothing has changed as we've branched out into goggles and MTB apparel. We're as passionate as ever about creating the perfect gear for your riding experience and ours.

## AWARD-WINNING FIT

From helmets to ankle pads and everything in between a snug low-profile fit is key to both comfort and safety. It's at the core of our philosophy, and is what makes us the best. Take our award-winning FlexTech system, which is the first ever helmet that quite literally embraces every head shape with its flexible foam segments.

## MEET THE TEAM

Our mission is to create the best protective equipment for the family of action sports and to help us achieve this we recruit a multi-disciplinary team of professional rippers with years of bails under their belts.

This is the crew that puts 'designed by riders' into our DNA and riding on the knife-edge between pain and pleasure they are best placed to shape the kit that keeps them and you riding safer for longer. Meet TSG's frontline R&D massive!

## MTB GOGGLE PRESTO 3.0 [VIEW ONLINE](#)

The Presto 3.0 MTB Goggle is designed for hard-riding mountain bikers and MotoX action and has been updated for improved fit and helmet compatibility. It is equipped with a 100% UV protection PC cylindrical lens that has superior anti-fog and double anti-scratch qualities, plus an additional clear lens for sunny light condition. The frame is made from flexible, form-fitting TPU, triple-layer face foam and articulated outriggers for a conformable, comfortable fit. The goggle strap has dual-adjustability for a secure customisable fit and features the added hold of silicone grip to keep the goggles in place even on downhill blasts.

## RIDE WITH CONFIDENCE

When you ride with a TSG helmet you're protected against the inevitable. Each and every model of TSG helmet is rigorously tested in the lab and by our team riders in the field to provide ultimate safety. The fit and wearing comfort of TSG helmets is unsurpassed. The TSG helmet design is based on the TSG Snug Fit: A design anatomically adapted to the head shape that reduces pressure points and prevents the helmet from wobbling or slipping. Designed in Switzerland.

## SENTINEL [VIEW ONLINE](#)

The Sentinel is TSG's newest full-face helmet, built for next level downhill mountain biking and jump sessions. The helmet is created in collaboration with one of the industry's most legendary helmet designers and the super-tough ABS outershell makes it possible to build a sleeker more solid silhouette with the added strength of a toughened PC-laminated EPS foam protective face guard. 12 vents maximize airflow through the helmet at all speeds and a wide eyepoint with precision placed visor deliver superior vision and accommodate a wide range of premium goggles for riding. To top it off, the Sentinel's comfort liner and cheek pads are removable and washable, so however hard the helmet is ridden it can be kept as fresh as when it came out the box. Just add a bike, bravado and beastly mountain and it's time to rip.

## PREVENTION

[VIEW ONLINE](#)

The Prevention helmet is a customisable multi-purpose open-face enduro helmet. Key to its unique design are its tool-free removable low-profile ear panels that deliver on-trail customisable protection. The helmet also features a robust in-mould construction, with impact-absorbent dual-density EPS liner and refined EPS edges for top-end protection. It is also supremely lightweight for unimpeded shreddability and features our Dual Fit Systems for perfect comfort and perfect fit. For all day rideability we also equipped it with a unique zonal venting and airflow system. However hot the riding gets, keep a cool head in the Prevention.

## SCOPE MIPS [VIEW ONLINE](#)

Designed specifically for the needs of trail riders the lightweight Scope MIPS provides superior fit, comfort, protection and ventilation for both ascents and furious descents. Three-point dial-activated adjustability optimizes the helmets fit and comfort, while an aesthetically integrated venting system helps you to keep a cool head both on climbs and descents. In addition, the MIPS system reduces brain shocks from angled impacts, while the low-profile shape of the helmet provides a more complete protection, including of the temples. Other features include a securing channel for safe addition of POV cameras and headlamps, and a design integrated visor that provides a secure mooring for goggles when not worn.

REMOVABLE CHIN BAR

## SEEK FR [VIEW ONLINE](#)

The Seek FR is arguably the most versatile bike helmet ever. The key component of this hardshell mountain bike lid is its removable full-face protection: Take it off and stash it for climbs and enduro, then fix it on for descents and burly trails. 17 vents add to the helmets comfort and superior air flow, while a precision Micro-Dial Fit System and removable pro-style visor add to its customisability, look and fit. In short the Seek FR offers supremely adaptable impact protection for all riding environments.

## SEEK [VIEW ONLINE](#)

If you are looking for an extremely robust all-mountain helmet you will love the Seek. The ABS hardshell construction offers maximum impact protection and complies with the highest safety standards. 17 aerodynamic vents deliver excellent air circulation while the Micro-Dial Fit System guarantees a perfect fit. Thanks to the removable visor you can also adapt the Seek to your individual style.

## GEO [VIEW ONLINE](#)

The Geo is a revolutionary new look in urban bike helmet. Created in collaboration with the founder of Papertrophy, the helmet's shell incorporates the unique angular design of the award winning company's paper creations. Its in-mold construction features a 10 vent cooling system and an easy to adjust Dial Fit System with fine-tuning for perfect comfort and fit. A removable LED rear light and reflective straps and print also add to the helmets safety credentials and visibility on the street, making this the ultimate in cool two-wheel urban head protection.

## ALL TERRAIN [VIEW ONLINE](#)

The All-Terrain is the first ever action sport helmet designed, tested and certified for all sports and all seasons. It combines the best features of bike, skate, water and winter lids in an all-singing-all-dancing full-wrap, low fitting, in-mold helmet, that is finished off with interchangeable water and winter specific ear pads. It comes in a wide range of sizes, so its lightweight

versatility is accessible to all, while removable Comfort pads, TSG Dial Fit and Tuned Fit Systems make the fit fully customisable. Last but not least, 12 aerodynamic vents and Airflow channels add to the helmet's comfort and coolness, making the All-Terrain the go-to head protection wherever and whenever you ride.

## KRAKEN [VIEW ONLINE](#)

When we introduced our Kraken helmet line with FlexTech in 2010, it was the first of its kind. The Kraken utilises a series of interior EPS foam segments, connected via a reinforcing framework. The advantage of such design is that it moulds precisely to the dimensions of your cranium, providing superior comfort whilst still exceeding safety standards.

## DAWN [VIEW ONLINE](#)

Inspired by the design of old-school helmets from skateboarding's halcyon days, the Dawn features a classic full-cut design. The hardshell comes in a single mould, with low cut earflaps, which suggest that distinctive retro look. Built from our tried-and-tested hardshell construction, with sturdy PP and shock-absorbing EPS foam padding, the Dawn helmet is the first of its kind meeting all required safety standards.

## DAWN FLEX [VIEW ONLINE](#)

The revolutionary Dawn Flex helmet brings true soft-fit comfort combined with a CE certified construction. This is what soft-shell users have been waiting for: the perfect compromise between comfort and safety. We have added our FlexTech innovation to this classic full-cut design with ear protection. The Dawn Flex utilizes a series of interior EPS foam segments connected by a reinforced skeleton, allowing the helmet to flex and mold to your head while still exceeding safety standards. The result is a lid that fits snugly without cramping, and will exceed all your expectations.

- Easy to open/close visor screw
- Quick release comfort liner for easy washing and cleaning
- 2 spherical visor lenses included (clear and chrome tinted)
- Inside anti-fog
- Anti-scratch treated
- Sealed view window
- Secure double D-Ring closure
- Nylon bag for storage included

## PASS 2.0 [VIEW ONLINE](#)

This is TSG's refined version of the legendary Pass Downhill Skateboarding Helmet. It benefits from a ground-up revamp, starting with a wider size range (from XS to XL – 52 cm to 62 cm) and easy-on head channel. Visually it draws on the sleek lines of the original Pass but now features enhanced aerodynamics and an even more streamlined silhouette, made from lighter weight ABS which is less harmful to humans and the environment. The visor is also new and fits the silhouette perfectly with distortion-free optics and an anti-fog coating. The visor also has tool-free adjustability for easy maintenance. Inside, we made the fit and comfort next level, with a superior EPS liner and all-new padding matrix. Plus, its functionality has been perfected with upgraded mouth and nose ventilation and fog clearing air ducts. All that is left for you to do is dial the road ahead.

## KEY FEATURES

- UPDATED DESIGN LANGUAGE
- REDESIGN OF THE PADDING MATRIX

NEW SHIELD VISOR DESIGN  
THAT MATCHES THE DESIGN  
LANGUAGE OF THE HELMET

- NEW ABS PRODUCTION PROCESS  
(LIGHTER IN WEIGHT, LESS HARMFUL  
FOR HUMANS AND ENVIRONMENT)

IMPROVED MOUTH/NOSE VENTILATION  
(LARGER VENTS & BETTER AIRFLOW)

IMPROVED FIT AND COMFORT  
(SLIGHTLY LONGER HEAD FORM)

LARGER HEAD CHANNEL  
FOR EASIER ENTRY AND REMOVAL

- EXTENDED SIZE RANGE  
NOW FROM XS TO XXL

NEW TOOL-LESS VISOR HINGE PLATES  
(EASY TO REMOVE AND REASSEMBLE)

- NEW ANTI-FOG INNER AIR DIFFUSER  
(USING VENT CHANNELS TO CARRY PORTIONS  
OF AIR DIRECTLY TO THE INNER OPTICAL AREA)

IMPROVED AERODYNAMICS  
(MORE STREAMLINED SILHOUETTE)

#### PROTECTION

-  Amplified Softshell construction
-  ACF impact foam
-  Removable PE Hardshell shin guard
-  Bike protocol PPETS0002 (test method partially based on EN 1621-1:2012 and others)

#### COMFORT

Pre-shaped design, Horseshoe shape, Stretchy neoprene fabric, Tough Stretch cover, Anti-slip NBR, Lateral padding, Neoprene Butterfly straps, Bottom velcro 360° strap, Removable foam, Open-back design

MODEL	KNEE-SHINGUARD TEMPER A 2.0			
ARTICLE #	7102801			
COLORS	black _030			
SIZES	S	M	L	XL

## KNEE-SHINGUARD TEMPER A 2.0 [VIEW ONLINE](#)

The Temper A 2.0 combine a ACF impact knee pad with hard-shell shin protection for aggressive mountain biking. Robust and yet comfortable neoprene construction featuring a total of 4 velcro fasteners for quick release. We have extended the shin coverage, re-shaped the calf profile and added an 360° bottom strap for a perfect fusion of comfort and protection.

#### PROTECTION

-  Amplified Softshell construction
-  ACF impact foam
-  Detachable PE shin guard
-  EN 1621-1:2012, Level 1

#### COMFORT

Pre-shaped design, Horseshoe shape, Stretchy neoprene fabric, Tough Stretch cover, Anti-slip NBR, Lateral padding, Top velcro 360° strap, Bottom velcro strap, Vented mesh at back of knee, Removable foam, Pull-over design

MODEL	KNEEGUARD TASK A 2.0			
ARTICLE #	7101401			
COLORS	black _030			
SIZES	S	M	L	XL

## KNEEGUARD TASK A 2.0 [VIEW ONLINE](#)

The Kneeguard Task A 2.0 comes with an extra-long, full coverage knee pad made of intelligent ACF for advanced impact protection. A pierce-proof insert keeps sharp objects like rocks, splintered branches or screw tips from penetrating the foam. A long greave covers your vulnerable shins; it can be detached to convert it easily from knee/shin to knee-only protection.

ARTICLE #	7101211			
COLORS	black _030			
SIZES	S	M	L	XL

#### PROTECTION

-  Amplified Softshell construction
-  ACF impact foam
-  Bike protocol PPETS0002 (test method partially based on EN 1621-1:2012 and others)

#### COMFORT

Pre-shaped design, Horseshoe Shape, Stretchy neoprene fabric, Tough Stretch cover, Anti-slip NBR, Lateral padding, Top velcro 360° strap, Bottom velcro strap, Removable foam, Pull-over design

## KNEEGUARD TAHOE A [VIEW ONLINE](#)

The Kneeguard Tahoe A is an all-mountain, dirt and park riders' kneeguard, offering complete protection and a non-slip design for comfortable, unhindered pedalling. This pull-on pad features a shape-conforming neoprene body with lateral padding and a removable, pierce-proof ACF kneepad for crash activated surround protection. A 360° strap system, bottom strap and anti-slip NBR liner give it a secure, comfortable fit even in the harshest of riding conditions.

MODEL	KNEEGUARD TAHOE ZIP A			
ARTICLE #	7101202			
COLORS	black _030			
SIZES	S	M	L	XL

#### PROTECTION

-  Amplified Softshell construction
-  ACF impact foam
-  Bike protocol PPETS0002 (test method partially based on EN 1621-1:2012 and others)

#### COMFORT

Pre-shaped design, Side zipper for easy on and off, Horseshoe shape, Pierce-proof insert, Stretchy neoprene fabric, Tough Stretch cover, Anti-slip NBR, Lateral padding, Top velcro 360° strap, Bottom velcro strap, Removable foam

## KNEEGUARD TAHOE ZIP A [VIEW ONLINE](#)

The Kneeguard Tahoe Zip is TSG's easy to open edition of a tried and tested essential piece of bike protection. The pad sleeve, which has a vertical zip to make it easier to get fit and wear, is made from supportive stretchy neoprene fabric and is secured by a top Velcro 360° strap and bottom Velcro strap to keep the horseshoe shaped knee shield in place. The shield has a two layer construction: A body-conforming soft cup forms around the knee and absorbs shocks while a thin hard cap directly on the foam prevents puncture wounds from pedals and stones. The pads open-backed design adds to its comfort and all-condition usability. It is the essential all-mountain, dirt and park riding protection for your mid-leg.

MODEL	KNEEGUARD SCOUT A			
ARTICLE #	71018			
COLORS	ripped black _215			
SIZES	S	M	L	XL

#### PROTECTION

-  Pure Softshell construction
-  ACF impact foam
-  EN 1621-1 CE

#### COMFORT

Pre-shaped design, Horseshoe shape, Soft Neoprene sleeve, Strong tear-resistant nylon, Anti-slip top cuff, Vented 4-way mesh back, Top velcro 360° strap, Bottom velcro strap, Pull-over design

## KNEEGUARD SCOUT A [VIEW ONLINE](#)

The Scout serie is our entry-level soft guard armed with ACF foam in a slip-resistant Horseshoe design. On the outside, tough Cordura protects the contact surface, while the soft neoprene cuff feels smooth and comfortable on the skin. Top and bottom Velcro straps allow for individual adjustment. Anti-slip silicone on the upper cuff keeps the Scout A in place, while a mesh back delivers superior ventilation.

MODEL	KNEEGUARD CHAMBER			
ARTICLE #	710124			
COLORS	black _102			
SIZES	S	M	L	XL

#### PROTECTION

-  Pure Softshell construction
-  PGF gel foam
-  Bike protocol PPETS0002 (test method partially based on EN 1621-1:2012 and others)

#### COMFORT

Pre-shaped design, Perforated Neoprene, Unique Air Stream Design, Extra top padding for more safety and a TSG Horseshoe shaped fit, Lateral padding, Cut-out at the back of the knee, Spandex lined back for comfort, Anti-slip NBR, Anti-slip bottom cuff, Top velcro 360° strap, Bottom velcro strap, Pull-over design

## KNEEGUARD CHAMBER [VIEW ONLINE](#)

The Kneeguard Chamber is a super light, pre-shaped pad that sets new standards in comfort, ventilation, and protection. The Kneeguard Chamber features a perforated light neoprene/mesh pull-on body for max ventilation. The back of knee features a spandex lined opening for comfort and flexibility. Integrated into this sleeve is an extremely flexible, shock-absorbent and perforated PGF knee pad, which allows for a slimmer profile with no loss of protection and for additional ventilation. We have tagged this ingenious and comprehensive ventilation concept Air Stream Design. Additionally, lateral pads and a pad above the knee provide added protection. To keep the pad in place it was equipped with a layer of non-slip NBR top and non-slip silicone bottom and 360 Velcro strap.

MODEL	KNEE-SLEEVE JOINT			
ARTICLE #	71014			
COLORS	black _102			
SIZES	XXS/XS	S/M	L/XL	XXL

#### PROTECTION

-  Pure Softshell construction
-  Articulated PU memory foam
-  Bike protocol PPETS0002 (test method partially based on EN 1621-1:2012 and others)

#### COMFORT

Flexible spandex sleeve, Anti-slip top cuff, Lateral padding, Vented mesh and cut-out at back of knee, Pull-over design

## KNEE-SLEEVE JOINT [VIEW ONLINE](#)

The slip-on Joint knee sleeve provides lightweight, low-profile Softshell protection with maximum flexibility. A vented mesh back and flexible spandex sleeve give this easy-to-ride pad its perfect fit and flexibility, while articulated soft padding delivers reliable crash protection with outstanding freedom of movement. You won't know you're wearing it until you slam.

## KNEE-SLEEVE DERMIS A [VIEW ONLINE](#)

The Knee-Sleeve Dermis A is a lightweight, slim-line bike pad that protects against light impact and scrapes on and off the trails. The spandex sleeve features strategically placed PU Powerband stripes, inspired by kinesiology tape, add strength to the lightweight material and reduces movement. This means that the sleeve is not only well ventilated for all day comfort but is also secure and is uniquely packable. The protective qualities of this consist of an ergonomic soft-shell pad with Tough Stretch facing: Packable protection for when easy rides turn hard.

## KNEE-SLEEVE DERMIS PRO A [VIEW ONLINE](#)

The Dermis Pro A is a lightweight, slim-line knee and shin protector for BMX racing and tough enduros. The pads easy-on spandex sleeve construction features climate control mesh venting and a behind-the-knee cut-out for better flex and comfort. The pad incorporates laminated ACF foam with a Tough Stretch outer, whose super-light, comfortable, slim-line build provides all-day protection. In short they are comfortable, packable and provide certified armour for the hardest of riding conditions.

MODEL	MTB CRASH PANT A
ARTICLE #	47068
COLORS	black_030
SIZES	XS S M L XL XXL XXXL

- PROTECTION**
- Pure Softshell construction
  - ACF impact foam at hip, thigh and tailbone
  - Sport Protective Clothes protocol PPETS0013 based on EN 13688:2013
- COMFORT**
- Coolmax chamois, Antimicrobial treated with Sanitized®, Comfortable spandex body, Vent mesh panels, Elastic waist, Removable foam elements

MTB CRASH PANT A [VIEW ONLINE](#)

The MTB Crash Pant A delivers maximum protection in a bulk-free short. The short's thigh, hip and tailbone pads are all removable and made from form-fitting, soft-shell ACF foam, which absorbs 95% of impact energy for a safer, more comfortable fit. The shorts also include a Coolmax chamois crotch gusset, to minimise chaffing, add comfort and ventilation and guarantee longer lasting freshness where it counts.

MODEL	CRASH PANT A
ARTICLE #	47067
COLORS	black_030
SIZES	XS S M L XL XXL XXXL

- PROTECTION**
- Pure Softshell construction
  - ACF impact foam at hip, thigh and tailbone
  - Sport Protective Clothes protocol PPETS0013 based on EN 13688:2013
- COMFORT**
- Comfortable spandex body, Vent mesh panels, Elastic waist, Removable foam elements

CRASH PANT A [VIEW ONLINE](#)

Highest protection in the lowest-profile short possible. The Crash Pant A uses a smart foam, which absorbs and then dissipates impact energy effectively whilst being softer and more comfortable than standard foam. All thigh, hip and tailbone pads can be removed easily at wash time. Ventilated to keep you cool downstairs.

## KNEEPAD FORCE V [VIEW ONLINE](#)

Developed in partnership with pro skater Jono Schwan the low-profile Force V knee pad is the ultimate hard cap protection for vert skaters. The pad is made from durable tear-resistant nylon, has surround padding and a hardcore cap so that you can ride XGames ramps safely with confidence. For ultimate protection we minimized movement, putting an anti-shift silicone print on the liner and fastened it with two adjustable Neoprene butterfly straps for pro-level hold.

## KNEEPAD FORCE V A [VIEW ONLINE](#)

The Force V A knee pad is modeled on Jono Schwan's low-profile, hard cap vert pad but offers the enhanced protection and comfort of an extra layer of ACF Foam. Like the Force V an anti-shift silicone printed liner and two adjustable Neoprene butterfly straps provide pro-level custom fit and security, while the extra layer of foam give the pad added form-fitting comfort and protection from bails. Bring on the vert!

## WRISTGUARD PROFESSIONAL

[VIEW ONLINE](#)

The Wristguard Professional features an ergonomically designed splint with full wrap straps. It provides palm protection and wrist support without compromising the wrist's normal range of motion.

#### PROTECTION

- Hardshell construction
- Removable PE Splint
- EN 14120:2003+A1:2007, Level 1

#### COMFORT

Pre-Shaped Design, Central 360° strap, Top and bottom velcro straps, Artificial leather palm pad

#### PROTECTION

- Hardshell construction
- EVA foam
- PE elbow and knee caps
- EN 14120:2003+A1:2007 Level 1

#### COMFORT

Pre-shaped design, Horseshoe shape, Elbow and knee pad with top velcro 360° straps, Pull-over design

## PLAIN-SET [VIEW ONLINE](#)

The Plain Set, including knee and elbow protection, gets you skate ready without breaking the bank! Featuring entry to intermediate level pull-on knee and elbow the set takes the pain out of skating's learning curb, with PE hardshell caps for sliding out slams and horseshoe shaped EVA foam inner pads to suck up the shocks. To keep the pads in place we added 360° Velcro straps for a safe and secure fit. Just add transition and it's skate o'clock!

## KNEEPAD FORCE III YOUTH [VIEW ONLINE](#)

We have taken our pro-designed Force III kneepad and tailored it to protect rookie ramp rippers. It provides the same great all-round coverage, pre-shaped fit, horseshoe shaped foam and superior protection of the adult pad. Made from supremely durable Cordura with Neoprene butterfly straps, top Velcro 360° strap and adjustable bottom Velcro strap with snap buckle they suck up slams and stay put in slides. Add to this a comfortable liner and open-back design and you have the best knee protection for junior vert skaters ever.

## JUNIOR-SET [VIEW ONLINE](#)

Our Junior Set merges high-end manufacturing with the best possible defence for the vulnerable limbs of new recruits! Impact-absorbing EVA and tough, durable PE hardshell combine to ensure optimum protection from both impact and abrasion. Our all-around Velcro straps guarantee perfect fit and comfort, and versatile design ensures that for the very littlest of early enthusiasts, our elbow pads can also be worn on little knees.

## JR PLAIN-SET [VIEW ONLINE](#)

The Jr Plain Set is designed to keep mini shredders protected while they tear up skating's learning curb. The pull-on knee and elbow pads are comfortable and secure, combining shaped impact-absorbing EVA inner cushioning with tough, durable PE hardshell caps for the best possible defence against impact and abrasion. To keep them in place we added 360° Velcro straps and to start kids out early the elbow pads can also be worn to protect little knees. Less pain, more progression is our mantra to get kids stoked on skateboarding.

## JR SKATE-SET [VIEW ONLINE](#)

The JR Skate Set is the ultimate introductory protection pack for junior shredders, which can be used for the full range of action sports. The set includes knee and elbow pads made with comfortable and durable slip-on base sleeves that are re-enforced with form-fitting EVA foam pads to absorb impacts and covered with hardshell PE caps for protected sliding and puncture wound prevention. The pads are kept in place by 360° Velcro straps. Wrist guards are also included in the set. These feature an easy-on pull-over design, held in place by 3 size-adjustable Velcro straps and equipped with a tough palm plate and hardwearing mock-leather palm pad.

### DW GLOVE [VIEW ONLINE](#)

The DW glove is a performance, fitted light bike glove, designed in collaboration with Dutch TSG BMX rider Daniel Wedemeijer. As you would expect from a hard-working bike glove, it features an easy-on, secure, neoprene wrist cuff with Velcro fastening and pull-tab. The palm and fingers are made from a one-piece synthetic suede with grip-print palm for a responsive and secure ride. Combine this with a ventilated 4-way stretch spandex on the upper and between the fingers, a reinforcement between thumb and index finger and you have a glove with the perfect balance of style and performance – just like Daniel.

## LOAM GLOVE [VIEW ONLINE](#)

The Loam Glove is designed for enduro, trail and DH riders that love the benefit of gloves without the bulk. The Loam has an ultra-fitting 4-way stretch mesh top for fitted perfection and breathability and mesh finger gussets for maximum stretch and airflow. A One-piece synthetic suede palm, reinforced thumb and seamless tip construction add durability, sensitivity and grip, while silicon print stripes deliver precision piloting on brake fingers. Add to this tech-thread finger patches for hassle-free connectivity and an easy-on elastic cuff and the Loam is ready to shred.

## SHELTER GLOVE [VIEW ONLINE](#)

The Shelter is TSG's MTB glove for bad weather, designed for riders who shred however cold and wet it gets. It is built from a durable wind and water-resistant material, with an inner nano liner for added warmth, and Amara material palm that features a water repellent membrane. For enhanced fit and feel this palm extends into the neoprene cuff which also helps to keep out the elements and holds the glove securely in place while riding. You don't even have to take the Shelter off to take a call because we made the index finger touch screen sensitive. In fact, the only problem with the Shelter is there are no more "bad weather" excuses for not getting out on the bike.

The lightweight stretch Grip DH Pants are designed for maximum comfort and performance while pedalling hard and fast. They are made from lightweight, water-repellent, 4-way stretch fabric that is double stitched for added strength and features a twill insert in its seat and inside leg to make them extra hardwearing. Pre-shaped at the knee, with laser-cut ventilation in the back, the pants also delivers unhindered pedalling performance and can be worn with or without protection, while race-ratchet closure keeps them securely on the waist and gives them fast adjustability. Finally, two front and rear zip pockets give a rider all the space they need a day out on two wheels.

**MODEL** DROP RAIN PANTS

**ARTICLE #** 4441800

**COLORS** black \_102

**SIZES** XS S M L XL

#### MATERIAL

100% Polyester printed Membrane  
- 5000 mm water resistance  
- 3000 g/m2/24h breathability

#### FEATURES

4-way stretch fabric, Elastic waist, Zip-off lower leg, Compression straps at ankle and knee

## DROP RAIN PANTS [VIEW ONLINE](#)

The Drop Rain Pants are stashable, breathable and water-resistant over-pants for bad weather riding. 5000 mm water-resistance and 3000 breathability keep a rider comfortable and dry, while a 4-way stretch fabric construction allows for unhindered pedalling. The pants have an easy-on elasticated waste and ankle cuffs that keep out the wet and stop the pants from flapping. The legs also zip off so they can be worn as shorts while flexible knee panel allows for kneepads to be worn underneath without restricting movement.

SIZES	XS	S	M	L	XL

#### MATERIAL

100% Polyester 140 gsm

#### FEATURES

Quick dry fabric, Light and stretchy, Breathable and ventilated, Arm pit ventilation, Shoulder and upper back vents, Drop tail for extra coverage, Hidden eyewear wipe, Fade resistant sublimated graphics

## GLACIER JERSEY L/S [VIEW ONLINE](#)

Designed for all-mountain and downhill MTB the girls' Glacier Jersey is a functional must-have for all serious riders. Sporting a iceladic glacier inspired print the jersey is made from a quick drying, light, and stretchy fabric for in-saddle comfort and freedom of movement. Strategically zoned venting in the shoulders, upper back and underarms makes the jersey a cooler, dryer ride while a drop tail keeps the mud and elements out when tucked over the frame. Add to this a hidden goggle wipe in the bottom hem and fade resistant sublimated graphics and you have the perfect long sleeve for long days on the hill.

#### MATERIAL

100% Polyester 140 gsm

#### FEATURES

Ventilated Quick dry fabric, 4-way stretch mesh fabric with air channels on front and back body, Drop tail for extra coverage, Hidden eyewear wipe, Fade resistant sublimated graphic

## SEEN JERSEY S/S [VIEW ONLINE](#)

Some of you just like the freedom of riding with your arms and elbow pads out so we made the Seen Jersey in a short sleeve version too. The jersey's body is made from a cooling 4-way stretch mesh fabric with air channels, for breathability and comfort, plus 4-way stretch raglan short sleeves. Just because they're handy we hid a sunglass wipe inside and added a drop tail to keep the dirt out. We also gave it a standalone mottled green graphic that is fade-resistant, so it looks box-fresh for longer.

## RIDGE DH PANTS [VIEW ONLINE](#)

Super light and with performance stretch the full length Ridge DH pants are built for race days and daily burns on the tracks and beyond. The toughened 4-way stretch fabric, with hardy double stitching and stretch knee panels, is specifically designed to take a beating while giving the rider the freedom and flex needed for fast and furious biking. The pants are high-waisted with an inner anti-slip band and extra stretch back yolk for secure yet unhindered fit while a race-ratchet closure provides a confident fit with on-the-fly adjustability. Venting in the back of the knee delivers cool airflow, even when padded up and a zipped side pocket, hidden eyewear wipe and inner stash pocket provide room for essentials.

#### FEATURES

4-way stretch fabric, Adjustable elastic rib armcuffs with velcro adjustment, Laser cut breathing vents, Rear panel venting, Zip mesh underarm ventilation, Large front pocket, Zip hand pockets, Stretch drawcord at bottom hem, Adjustable helmet compatible hood, Heat-sealed seams, Reflective details

## CORP ANORAK

[VIEW ONLINE](#)

Sporting 5000 mm water resistance and 3000 breathability and heat-sealed seams the Corp Anorak is a functional riding jacket that keeps the elements at bay while maintaining a comfortable personal climate. 4-way stretch fabric gives performance-friendly freedom of movement, with laser-cut front vents, a rear panel venting and zippered mesh underarm ventilation allowing a rider to customise airflow. Elastic rib cuffs and a draw cord hem keep out the worst of the weather, as does the helmet-compatible 3-point adjustable hood. Also, a zipped pouch pocket and zip hand pockets provide all the stash space a rider needs. No more excuses to keep you off the trails.

MODEL	INSULATION JACKET

MODEL	RACE SOFTSHELL JACKET-VEST				
ARTICLE #	444031				
COLORS	black_102				
SIZES	XS	S	M	L	XL

#### MATERIAL

100% Double Softshell Polyester

#### FEATURES

Water repellent softshell fabric, 4-way stretch comfort, Zip-off sleeves to turn jacket into a vest, Velcro strap at sleeve hems for adjustment, Zip chest pocket large enough to fit mobile phone, Two side hand pockets, Large zip pocket on the bottom back, Reflective logo prints on the front and back

## RACE SOFTSHELL JACKET-VEST [VIEW ONLINE](#)

The Race Softshell Jacket-vest is a versatile thermal layer that allows a rider to adapt to changing conditions and on and off the bike. It is made from a water repellent 4-way stretch fabric for maximum manageability and comfort while riding, plus removable sleeves that make it ultimately adaptable to the ride and conditions on the trails. Velcro straps at the cuffs help cut out the chill while a zip breast pocket provides space for a mobile device and a large lower back pocket means you can stash a map, cap or whatever else without compromising your ride. We also added reflective logo prints on jacket's front and back so those pesky cars will see you coming. Ride hard and stay safe!

ARTICLE #	443845				
COLORS	black grey _136				
SIZES	XS	S	M	L	XL

#### MATERIAL

90% Polyester, 10% Elastane

#### FEATURES

String loops (avoids fluttering of strings), Front logo embroidery, small logo prints on the back, Front hand pockets, Ribbed cuffs with thumb holes, Doesn't require ironing

## AERO ZIP HOODIE [VIEW ONLINE](#)

Built to chill the Aero Zip Hoodie is just what you need when the mercury drops. It is made from a super-soft brushed polyester, that is fast drying, warm and most importantly doesn't need ironing. Deep front pockets on either side of the full-length front zip are great for sinking cold hands into, while a shaped hood and ribbed cuffs help to keep out the cold. For added function the hoodie's pull-strings are looped so they don't hang out and snag and we've added an embroidered front logo and small printed logo on the back for styling it. From sofa surfing to playing the thermal layer while being outdoors the Aero Zip Hoodie delivers all the comfort you need.
